iWell Final TMP, 6th February, Sofia, Bulgaria 2023

In early February 2023, partners succeeded to meet each other in person in Sofia, for the purposes of a productive face to face meeting which was the last within the iWell project's life-cycle. Partners updated each other on the status of iWell project's works in each partner country and decided on the next steps and final deadlines. In the following days, while approaching the end of the project, a final update of the website will take place and all partner-countries will organize their multiplier events and other dissemination activities highlighting the achievements of the project. In keeping up with their great collaboration, all iWell partners have agreed to jointly write up a new proposal for one more project on students' and teachers' well-being.
